EAB Warehouse equipment: Pallet racking, Drive-in racking, Radioshuttle™, Live storage racking, Drawer unit, Cantilever racking, Timber racking, Vertical racking, Modular shelving, Barrier system and Plastic bins.

Facts

Safety requirements

EAB's cantilever racking meet all safety requirements in the Nordic standard INSTA 253, Swedish reference SS 2643, which includes instructions for choice of materials, dimensioning, testing, assembly and marking.

Finish

EAB's cantilever racking are lacquered using a heavy-duty powder coating. Standard colours: grey uprights, orange arms. Option for hot-dip galvatised contructions.

Delivery

The racks are supplied complete with uprights, arms, brace sections, screws and nuts. EAB cantilever racking are easy to assemble with the help of the accompanying assembly instructions. All deliveries include a load sign that should be set up where it is clearly visible.

LOG+PLUS

- + Wide range of Standard products
- + Five year guarantee
- + Concept, project management, construction and assembly
- + Tried-and-tested products
- + One project leader = a single contact person throughout the project
- + Production and product development at the same site
- + Extensive experience and solid know-how in steel structures (valuable know-how gained in many warehouse equipping projects)
- + Everything in good time. We ask any questions that arise before making our offer to avoid unnecessary extra costs
- + Our own testing department
- + A long-term approach to business and customer relationships

CANTILEVER RACKING

You are holding the market's leading range of cantilever racking in your hand! An ingenious range of products with thousands of possible combinations. All with the aim of creating a personalised warehouse for careful handling of long goods.

The cantilever racking is available in single and double-sided versions, for light or heavy loads. The heavy cantilever racking is also available in several versions depending on what it is to be used for.

EAB's storage equipments are manufactured exclusively at our factory in Smålandsstenar. This means we can

promise fast and punctual delivery and also specially produced fittings to suit the particular nooks and crannies of your warehouse, without it costing the earth. The chances are, however, that you'll find what you're looking for in our broad standard range.

EAB built to last. Durability is a distinguishing characteristic of EAB. Our attention to detail and quality thinking are part of everything we do from selecting material to manufacturing, delivery and assembly. Durability also includes the relationships we have with our customers, suppliers and employees.

Cantilever Racking Light model

- ① Cantilever Racking with roof construction
- ② Cantilever Racking Hot dip galvanized

- ③ Cantilever Racking Heavy Duty model
- ④ Cantilever Racking on mobile bases
